

The author, who grew up in the American South as a faithful church-going Christian, walks us through our Christian history and helps us see the subversive way the gospel was distorted to sustain the church through centuries of slavery and oppression.

We will cover 1 of the 10 Chapters each week (~15 pgs of easy reading). The reading assignments are optional, as is attendance every week. We are interested in hearing many voices and perspectives!

You can purchase the book yourself:
